

**Juan Kasari**  
**Video-installation "SWING", 2006**

Instructions:

Video work should be projected to the screen or wall using video projector and DVD-player. Surface of the wall can be rough.

Real swing should be placed 4-7 metres opposite from the wall. Swing have 2 ropes so it should be hang from the ceiling.

This installation is interactive so the swing should be hanged tight that people can actually use the swing.

Video can be showed also without installation

Video can be found at
